# FOREST BOUND

A WINDOW INTO  
NATIVE PLANTS

Institute for  
Applied Ecology

## JOIN THE ADVENTURE!

We will meet at a centralized location between 8 and 8:15am, and will all ride together to our forest destination. Locations will be announced in registration packet.

**Space is limited; to reserve your spot submit your application today!**

## FOREST BOUND

is a **FREE** native plant ecology training program for high school students utilizing the Native Plant Curriculum, From Ponderosa to Prickly Pear, developed by the Institute for Applied Ecology.

This integrative program examines native plants through a botanical, environmental, and cultural lens.

### 2019 Summer Sessions:

#### **Cibola National Forest**

June 3-7  
July 8-12

#### **Santa Fe National Forest**

June 17-21  
July 22-26

During this 5 day training, you will gain skills in plant identification using botanical terms, soil science, ecoregions, how to build your own plant press, cooking and making medicine with native plants and much more!

At the end of the course you will receive a certification of completion in Basic Native Plant Ecology.
