

Come volunteer with us!

Prairie Restoration at Champoeg State Park November 20, 2021

Help plant native plants to restore prairie habitat at the park and learn about prairie ecology and the cultural significance of the area and plants you will be planting.

What: Volunteer to Help Plant Native Wildflowers!

Where: Champoeg State Heritage Area

Who: Everyone!

**When: Saturday November 20, 2021
9:00 am 1:00 pm**

Bring: Water, lunch, and gardening gloves if you have them.

No special skills are needed! All tools and instructions will be provided by the Institute for Applied Ecology!

Please RSVP to Andy Neill (andy@appliedeco.org) so we can bring enough tools for everyone! Meet us near the boat launch just past Oak Grove parking area at 9 am and we will move from there into the prairie for planting!
